About Us

Brand Packaging Solutions is based in Turkey, the centre of the Europe's packaging processing industry.

We provide you a full range of specialized packaging products into the plastic industry and offer you the easiest way to source all of your packaging requirements from a single supplier.

Whatever the range and type of packaging you use, you can source it from us.

Our commitment is to supply you a full range of packaging products with perfect precision which meets our customer's requirements and to take the stress away from having source your packaging needs from several different suppliers & countries.

We focus our efforts on understanding our customer's needs for reliable, high-quality products, while ensuring exceptional supply and service on a personalised level.

Our expertise and years of experience means we can identify and offer new technologies and blends applied to all of our product ranges, keeping our clients abreast of ever-changing legislation, and achieve your corporate and social responsibility and environmental policies and plans.
